# COMPANY

## profile

Its a matter of just 6 years, when **GLASSCO** sanitary fittings was established under the brilliant leadership of Haji Muhammad Yaqoob & Sons.

Haji Yaqoob is blessed by a unique & innovative mind by Allah Almighty. He took the company as a challenge, worked hard and in a very short time the Company enjoyed a prominent place in the world of sanitary fittings.

Quality is our main target but at the same time our designs are unique, durable and comfortable in use. The products are long life, cheap but can be compared with other companies having high prices.

Our future ambitions are very clear . We are looking to promote the Company not only for local market but at international level.

We are obliged by our dealers, distributors and ultimate customers, who remain with us in this journey of struggle and pushed us forward.
